

Dear ladies and gentlemen,

On behalf of the Ministry of Energy of Uzbekistan, and on my own behalf, I am delighted to welcome the participants and guests of Uzbekistan Energy Week 2026.

Hosting Energy Week in our country has become a valued tradition, bringing together representatives of government bodies, the business community and international experts to discuss pressing regional and global energy issues, share experience and develop joint solutions.

Uzbekistan is steadily implementing reforms aimed at modernising the sector, enhancing energy efficiency, promoting investment and introducing advanced technologies across the power, oil and gas, and related industries.

Amid shifting geo-economic and geopolitical realities, the transformation of energy markets and growing importance of alternative energy sources, platforms like this are becoming ever more relevant, fostering new approaches and perspectives for the development of the energy sector.

I am confident that Uzbekistan Energy Week will serve as an effective platform for constructive dialogue, strengthening partnerships, establishing new business contacts and reaching mutually beneficial agreements.

I wish all participants and guests productive work and every success!

Sincerely yours,

Jurabek Mirzamakhmudov
Minister of Energy
