

**ASSOCIATION
«UZBUILDMATERIALS»**

**To the participants of the 6th International Conference on Construction Industry –
ICCI 2025**

Ladies and gentlemen!

On behalf of the Uzpromstroyaterialy Association, let me welcome the participants, guests, and organisers of the **6th International Conference of the Construction Industry - ICCI 2025**.

The construction materials market in Uzbekistan continues to develop rapidly. Across the country, large-scale construction and reconstruction of existing industrial facilities, residential buildings, educational and medical institutions, and social facilities is underway. The level of development of the construction industry in Uzbekistan is capable of solving the most complex problems, including providing facilities with high-quality building materials, which demonstrates the appearance of our cities, which have been significantly improved over the years of the country's independence.

In turn, holding the next “International Conference of the Construction Industry—ICCI 2025” favourably contributes to the development of international cooperation with domestic companies and provides a meeting place for experts and construction industry professionals to exchange opinions and discuss the subject of dialogue.

Taking this opportunity, on behalf of the Uzpromstroyaterialy association, I wish all participants of the 6th International Conference of the Construction Industry - ICCI 2025 fruitful work and the establishment of long-term, trusting business contacts.

Rahimov I.I.

**Deputy Chairman for Investment, Export, and Economy
of the Board of the Uzbuildmaterials Association**
