

On behalf of the Ministry of Mining and Geology of Uzbekistan, we would like to welcome all participants and guests of the **7th International Mining and Metallurgical Forum of Uzbekistan – UIMF 2025**.

In today's world, the sustainable development of the mining sector is inextricably linked with regional and international cooperation. The cutting-edge technologies and engineering innovations in the areas of geological prospecting, exploration, field development, and efficient processing of mineral raw materials are shaping the future trends of the industry, enhancing production efficiency and quality and also contribute to lowering the cost of final products.

UIMF 2025 stands as one of the key annual business events for the mining and metallurgical sector in Uzbekistan. It provides a solid platform for dialogue, knowledge exchange, and strategic planning helping to outline the future landscape of the industry. The topics to be discussed at the forum are of significant relevance to the professionals across the value chain and often translate into practical solutions and policies.

We wish all forum participants insightful meetings, impactful presentations, and productive discussions!

Deputy Minister
U. Yusupov
