

**Dear ladies and gentlemen,**

On behalf of the Ministry of Construction, Housing and Communal Services of Uzbekistan, I am delighted to welcome the participants and guests to **Uzbekistan Construction Week 2026**.

The construction industry plays a vital role in creation of tangible assets that directly meet the needs of the society, particularly in housing, while also forming the foundation for effective functioning of all other sectors of the economy, thereby remaining one of the key drivers of promoting the sustainable economic growth.

In recent years, Uzbekistan's construction sector has experienced substantial growth, emerging as a leading area for investment, the establishment of new enterprises and creation of jobs, while consistently demonstrating a resilient production growth.

Alongside large-scale residential and housing programmes under the New Uzbekistan initiative and construction of New Tashkent, launched by the President of Uzbekistan, the development of industrial facilities is also progressing at a rapid pace.

**The 27th Uzbekistan International Construction Exhibition – UzBuild 2026 and the 7th International Conference of Construction Industry – ICCI 2026** traditionally showcase a wide range of equipment, technologies and materials. Their comprehensive business programme once again confirms their significance and strong demand across the international construction community.

I am confident that these forthcoming events will foster the establishment of valuable and mutually beneficial partnerships between domestic and international professionals, encourage the expertise exchange, and provide insights into the latest developments in the construction sector.

I wish all participants and guests a productive event, successful cooperation and continued professional achievements.

Yours sincerely,

**D. Adilov,**  
**Deputy Minister**
