

Dear ladies and gentlemen,

On behalf of the Directorate for Construction of the City of New Tashkent, under the Cabinet of Ministers of Uzbekistan, and in my personal capacity, I am pleased to welcome all participants to **Uzbekistan Construction and Interior Week 2026**.

In recent years, construction activity in Uzbekistan has demonstrated the strong focus of the government on enhancing the look and liveability of the cities, providing people with quality housing, and developing modern infrastructure.

In this context, the New Tashkent project serves as a mirror of this large-scale work, as seen in the development of our nation's capital.

The combined impact of the **27th Uzbekistan International Construction Exhibition – UzBuild 2026, and the 7th International Conference of Construction Industry - ICCI 2026** will be of significant practical value to construction professionals and will support adoption of innovation across the sector.

I wish all participants every success!

D. Adilov,
Director
