No 01-11-1490

Dear ladies and gentlemen,

It is my great honour to invite you to participate in the **Uzbekistan International Energy Week – UEW 2026**, taking place from **12 to 14 May, 2026**.

This landmark event traditionally unites the leading experts, decision-makers and companies from the energy and oil & gas sectors, serving as a unique platform to showcase the cutting-edge equipment and technologies, as well as to explore strategies and global trends shaping the industry. We are proud to reflect on the success of **Energy Week 2025**, held under the theme **“Regional Partnership for Sustainable Energy”**.

Today's global energy landscape is marked by a decisive shift towards renewable sources and a sustainable, green economy. This transformation calls for close collaboration and joint efforts from businesses, government agencies, and international organisations alike.

The forthcoming international **Uzbekistan Energy Week – UEW 2026** will be held under the theme **“New Energy: Innovations. Sustainability. Regional Cooperation.”** The theme captures the key priorities shaping today's global and regional energy agenda, while highlighting a strong commitment to turning them into real solutions.

The programme of UEW 2026 will highlight the flagship events as follows:

- The **28th International Exhibition and Conference Oil and Gas of Uzbekistan – OGU 2026**;
- The **19th International Exhibition of Energy, Energy Saving, Alternative Energy Sources – Power Uzbekistan 2026**;
- The Specialized Section **Green Energy Saving Technologies of Central Asia – GETCA 2026**;
- The **6th International Energy Conference**;
- A series of **G2B and B2B meetings**.

I am confident that **UEW 2026**, organized with the support of the international exhibition company Iteca Exhibitions, will once again serve as an influential platform for expert discussions, knowledge sharing and presentation of advanced technologies and innovations.

Your participation will not only highlight the significance of this landmark event but will also contribute to its success.

Sincerely,

Jurabek Mirzamahmudov,
Minister of Energy

Ex. M.Maxbubov
