UZBEKISTAN

16 | 17 | 18 MARCH 2022

TASHKENT, UZBEKISTAN

17th International
Exhibition

AgroWorld
Uzbekistan 2022

**GRAIN AND
MIXED FEED
PAVILION**

Key sections:

Grain and flour-milling
technologies

Technologies for the production
of corn and cereals

Technologies for processing
rice and legumes

Feed production
technologies

GRAIN AND MIXED FEED PAVILION

AgroWorld Uzbekistan in Tashkent 2022 is the one international event in Uzbekistan, covers the interests of both grain and feeds businesses.

Why Uzbekistan?

- Uzbekistan is one of the most dynamically growing economy in the Central Asia. The continuing economic transformation and market reforms by the government of Uzbekistan contribute to the further development of the country's agricultural sector and improvement of the investment climate
- Uzbekistan attracts more and more international partners for trade relations and new investment projects. Today, 143 investment projects are developed and are ready to implementation in the country, including 70 projects for vegetable oil production
- Uzbekistan is among TOP-5 global importers of flour. The country is actively developing the domestic grain production and processing, while the government provides the systemic support to the industry
- The state also pays a lot of attention to the production of granular compound feeds. 27 investment projects have been prepared in this direction, as programs for raising large and small cattle are expanding in Uzbekistan

AGROWORLD UZBEKISTAN 2022, 16-18 MARCH

TECHNOLOGIES EXHIBITED

Grain and Flour Mill Technologies

Cleaning and Tempering Machines and Equipment
Grinding Machines and Equipment
Screening Machines and Equipment

Corn and Semolina Production Technologies

Cleaning and Drying Machines
Grinding Machines and Equipment
Screening Machines and Equipment

Rice and Pulses Processing Technologies

Drying and Husking Machines
Cleaning and Sorting Machines
Polishing Machines and Equipment

Bulghur Production Technologies

Cleaning and Pre-Washing Systems
Husking Machines and Equipment
Cooking, Cooling and Drying Systems
Cracking and Polishing Machines

Pasta Production Technologies

Kneading Machines and Equipment
Shaping and Molding Machines and Equipment
Cutting and Drying Machines

Feed Production Technologies

Dosing Units Machines and Equipment
Cracking and Mixing Machines
Pelletizing and Granule Unit Machines

Cultivation technologies

Classification Systems and Equipment
Conveying Systems and Equipment
Bagging, Handling and Packaging machines and equipment
Silo and Storage Systems
Ventilation Equipment
Temperature and Humidity Control Systems
Electrical, Automation & Yield Systems
Raw Material Procurement Unit Machines
Quality Control Systems
Analysis Kits and Devices
Additives
Spare Parts and Sub-Industry Products
Raw Material

CONSTANT PARTICIPANT
